## Academic Policies

---

### Attendance Policy

Students must complete 100% of the learning material in a course and demonstrate mastery of the material to receive credit for a course. Students not completing the material will not be issued a Certificate of Completion to receive credit hours for a course. The CE Shop does not have a probation policy in place for courses. Students must complete all lessons of the program to graduate. All distance education courses are developed using standard principles to ensure student participation and interactivity.

Course Time-Out – Students must be actively engaged and moving through the course in order for the elapsed time to continue being counted. After 20 minutes of inactivity, the timer will stop and a pop-up window appears asking the student if they wish to continue or not. If they choose to continue, the timer continues and if not, they are logged out. When the student returns, they will be brought back to the same place and elapsed time as when they last logged out.

Students progress at their own pace through each online course. Therefore, there are no policies or penalties surrounding tardiness, leaving early, make-up work, leave of absence or other attendance-related rules.

### Standards of Progress and Mastery of Content

To successfully complete a course, a student must satisfy the curriculum requirements and achieve a minimum score of 75% on the final examination. Exam scores will be maintained on the student's permanent record with the school.

The CE Shop pre-licensing courses are delivered in an online format, using an inquiry-based approach to ensure student participation and interactivity. See the Timed Outline for a detailed breakdown.

Courses do not rely on or require a textbook or text-based slide content. Instead, learners are presented with questions and problems throughout the course (see descriptions below). Learners are provided with various resources (see descriptions below) which relate to the inquiries. These resources may be attached to multiple inquiries where applicable and can be saved and/or printed.

The amount of time required for the learner to complete each inquiry will vary depending on prior knowledge, ability to retain information, and the complexity of each inquiry.

While some inquiries will take less or more time than others, based on beta testing and actual results from other courses using this same methodology, we estimate the average time of completion to be a minimum of 2.5 minutes per inquiry.

## Inquiry Descriptions

Inquiry Type	Description
Branching	Interaction with multiple decision points; useful for covering a process or relationship that requires multiple choices be made over the course of the scenario

Matching Drag and Drop	Requires learners to match a choice with a description (such as matching a term to its definition)
Multiple Choice	Question with text answer choices in which at least one response is correct
Poll	Interaction in which learners choose an opinion or option that is then compiled with other learners' responses and displayed in graph form for learners to review
True/False	Question that includes statements learners must identify as true or false; categories may change depending on the question (such as yes/no, legal/illegal, required/not required)

### Course Completion Requirements

1. Students must complete all course content in order to be eligible to take the final course exam and receive a Certificate of Completion.
