To successfully complete a course, a student must satisfy the curriculum requirements and achieve a minimum score of 70% on the final examination. Exam scores will be maintained on the student's permanent record with the school.

The CE Shop pre-licensing courses are delivered in an online format, using an inquiry-based approach to ensure student participation and interactivity. See the Timed Outline for a detailed breakdown.

Courses do not rely on or require a textbook or text-based slide content. Instead, learners are presented with questions and problems throughout the course (see descriptions below). Learners are provided with various resources (see descriptions below) which relate to the inquiries. These resources may be attached to multiple inquiries where applicable and can be saved and/or printed.

The amount of time required for the learner to complete each inquiry will vary depending on prior knowledge, ability to retain information, and the complexity of each inquiry. While some inquiries will take less or more time than others, based on beta testing and actual results from other courses using this same methodology, we estimate the average time of completion to be a minimum of 2.5 minutes per inquiry.
