Delaware 99-Hour Salesperson Pre-Licensing Course

This program satisfies the course objectives stated by the Delaware Real Estate Commission:
- To provide an overview of the real estate profession and to ensure the prospective salesperson understands the application of professional ethics as applied to real estate transactions.
- To provide the prospective licensee with an understanding of:
    • Real property characteristics, definitions, ownership, restrictions and transfer
    • Assessing and explaining property valuation and the appraisal process
    • Contracts, agency relationships with buyers and sellers, and federal requirements
    • Financing, the transaction and settlement
    • Leases, rents, and property management
    • The duties and powers of the Commission
    • Licensing requirements
    • Statutory requirements governing the activities of licensees
    • Other aspects of Delaware law which impact the real estate issues
- To prepare the prospective licensee for passing the real estate sales licensing examination for the State of Delaware.

A minimum score of 80% is required to pass the final exam.

Vocational Objective
Successful completion of this course satisfies the minimum educational requirements for eligibility to take the Delaware Real Estate Salesperson Examination. The course objectives are to satisfy the basic requirements of the Colorado Real Estate Commission for a licensee to sell real estate.

Please Note: a criminal conviction may affect a student's ability to be licensed.

Attendance Policy
Students must complete 100% of the learning material in a course and demonstrate mastery of the learning material to receive credit for the course. Students not completing the material will not be issued a certificate of completion to receive credit hours for a course. The CE Shop does not have a probation policy in place for courses. Students must complete all lessons of the program to graduate. All distance education courses are developed using standard principles to ensure student participation and interactivity.

Students progress at their own pace through each online course. Therefore, there are no policies or penalties surrounding tardiness, leaving early, make-up work, leave of absence or other attendance-related rules.

Standards of Progress and Mastery of Content
To successfully complete a course, a student must satisfy the curriculum requirements and achieve a minimum score of 80% on the final examination. Exam scores will be maintained on the student's permanent record with the school.

The CE Shop pre-licensing courses are delivered in an online format, using an inquiry-based approach to ensure student participation and interactivity.

Courses do not rely on or require a textbook or text-based slide content. Instead, learners are presented with questions and problems throughout the course (see descriptions below). Learners are provided with various resources (see descriptions below) which relate to the inquiries. These resources may be attached to multiple inquiries where applicable and can be saved and/or printed.

The amount of time required for the learner to complete each inquiry will vary depending on prior knowledge, ability to retain information, and the complexity of each inquiry. While some inquiries will take less or more time than others, based on beta testing and actual results from other courses using this same methodology, we estimate the average time of completion to be a minimum of 2.5 minutes per inquiry.
