Additionally, courses are compatible with iPad and Android tablets. An internet connection is required (high speed is recommended but not required).

LMS features and functionality highlights:

- Designed for self-pace asynchronous delivery
- Progress summary containing a course overview, progress, regulations, and other course details
- Left-hand navigation of course content
- Flow control requiring mastery to progress through course
- Slide-based text and interactive activities (e.g., true false, matching, sort, hot

spots, formulas, text completion, multiple choice, flashcards, and learning path scenarios)

- Supports embedded video and audio
- Time controls to enforce mandatory seat time
- Pooled/randomized exam banks
- Notes and resources – allows students to store customized notes and course materials for future reference or printing
- Internal data and data recording capabilities

All online systems are hosted in a class-a secured data center with the following services designed to minimize the effect of any possible hardware or software failures:

- Nightly Backups – Backs up all student past and present student activity include progress in the course delivery system.
- Intrusion Detection – These services are running 24x7x365 to preclude from any outside entity accessing our online systems. This would include aggressive denial of service attacks or more innocent virus-related issues.
- Domain and IP Traffic Monitoring – These additional services are implemented to allow our team to proactively manage potential hosting environment issues that could impact students.

Student Technical Support

Students can contact our customer support team for technical and administrative support by email, phone, and online chat. Normal business hours are 6:00am to 8:00pm MST Monday through Friday. Weekend support is also available via email.

Identity Verification

Verification of the student's identity takes place at multiple levels in their interaction with The CE Shop.

1. At the time of account activation, the licensee is asked for their state issued license number and asked to create a unique log in including their email address and a secure password.
2. At the conclusion of the course, students perform an electronic signature. This process requires students to verify their identities by entering in their account passwords. The completed electronic signature form is retained in our electronic records and can be made available in paper format at any time. Once this process is complete, the certificate of completion is issued and the course completion is reported to the appropriate organization, as needed.

Prior Training Credit Policy

Credits from another institution cannot be combined with those earned through The CE Shop. The CE Shop does not guarantee the transferability of its credits to any other institution unless there is a written agreement with another institution. Presently, there are no such agreements in place. This policy does not impact the refund policy.

This course is comprised of 63 course lessons and requires a minimum score of 75% to pass the final exam.

The CE Shop's pre-licensing courses in Oregon will expire one year after the date of purchase.

Vocational Objective

Please Note: a criminal conviction may affect a student's ability to be licensed.

Academic Policies

Attendance Policy

Students must complete 100% of the learning material of a course and demonstrate mastery of the learning material to receive credit for the course. Students not completing the material will not be issued certificates of completion to receive credit hours for a course. The CE Shop does not have a probation policy in place for courses. Students must complete all lessons of the program to graduate. All distance education courses are developed using standard principles to ensure student participation and interactivity.

Course Time-Out – Students must be actively engaged and moving through the course in order for the elapsed time to continue being counted. After 20 minutes of inactivity, the timer will stop and a pop-up window appears asking the student if they wish to continue or not. If they choose to continue, the timer continues and if not, they are logged out. When the student returns, they will be brought back to the same place and elapsed time as when they last logged out.

Students progress at their own pace through each online course. Therefore, there are no policies or penalties surrounding tardiness, leaving early, make-up work, leave of absence or other attendance-related rules.

Standards of Progress and Mastery of Content

To successfully complete a course, a student must satisfy the curriculum requirements and achieve a minimum score of 75% on the final examination. Exam scores will be maintained on the student's permanent record with the school.

The CE Shop pre-licensing courses are delivered in an online format, using an inquiry-based approach to ensure student participation and interactivity. Courses are developed and offered in a linear fashion, meaning that students are not able to progress to the next page until they have successfully completed all activities and/or quizzes.

Courses do not rely on or require a textbook or text-based slide content. Instead, learners are presented with questions and problems throughout the course (see descriptions below). Learners are provided with various resources (see descriptions below) which relate to the inquiries. These resources may be attached to multiple inquiries where applicable and can be saved and/or printed.

The amount of time required for the learner to complete each inquiry will vary depending on prior knowledge, ability to retain information, and the complexity of each inquiry. While some inquiries will take less or more time than others, based on beta testing and actual results from other courses using this same methodology, we estimate the average time of completion to be a minimum of 2.5 minutes per inquiry.

Students are able to view their course progress at any time within our learning management system.
